Historic Environment Record

Access and Charging Policy

1. Introduction

Content of the Historic Environment Record:

Redcar & Cleveland Borough Council maintains the Historic Environment Record for the Borough of Redcar & Cleveland. The Historic Environment Record (HER) is the primary source of information about the historic environment in the borough. It includes a database that contains more than 3,000 records with information about remains from the prehistoric period to the present day. These provide information on nationally designated (conservation areas, listed buildings, registered parks and gardens and scheduled monuments), locally designated and undesignated heritage assets. Full details of the remit and content of the record can be found elsewhere in the HER's Information documentation.

Mapped data

The database is linked to a series of digital maps held as Geographic Information System (GIS) files. The maps contain geographical depictions of all sites on the database, ranging from simple point locations to complex plots of extensive sites such as ancient field systems. Maps provided from the HER GIS are for information purposes only. Due to Ordnance Survey copyright restrictions this mapping must not be reproduced in researcher's own reports.

How do I access the HER?

The HER is based at Redcar & Cleveland House in Redcar. You can get information from the HER in a number of different ways, such as by email: strategic.planning@redcar-cleveland.gov.uk, telephone: 01287 612356 or letter: Seafield House, Kirkleatham Street, Redcar, TS10 1SP. If you wish to visit in person, you must make an appointment with strategic.planning@redcar-cleveland.gov.uk (tel. 01287 612356). An appointment can normally be arranged within 10 working days (we will endeavour to assist in establishing whether a visit is advisable, but we cannot undertake detailed assessment of the relevance of specific material).

Searching the HER

Historic Environment Record (HER) searches provide information selected from the record, normally for a defined area, although bespoke searches can also be done for particular periods or types of records. The HER includes both digital and hard copy information and references to other sources held outside the HER. It is constantly being enhanced and the absence of a record should not be relied upon as indicating a lack of heritage interest, other national or specialist sources may contain information not held or indexed.
